INDEX.

Acetylene from natural gas, 216.
Adsorption of bitumen by clay, 258, 263, 270.
Albert Shales, 262.
Alberta, natural gas, 216, 224.
Albertite, 246, 250, 254, 261, 262, 273.
Algal coals, 239.
Ambars (earthen reservoirs, Uralsk), 100, 120, 122.
Ammonia from oil-shales, 175.
Ammonium sulphate in oil-shales, 250, 261, 262, 269.
Analyses :—Albertite, 246, 254.
—— Asphalt, 246, 252, 259, 262.
—— Brickclay, 265.
—— Cannel coal, 246.
—— Clays (average), 265.
—— Fireclays, 265.
—— Fuller's earths, 265.
—— Glance-pitch, 246, 254.
—— Grahamite, 246, 254.
—— Kerogen, 246.
—— Manjak, 254, 261.
—— Natural gas, 197, 198, 219.
—— Scotch oil-shale, 246.
—— Do., spent, 265.
—— Scotch shale oil, 252.
—— Torbanite, 246.
—— Do., spent, 265.
—— Trinidad oil-sands, 260.
—— Wurtzilite, 254, 261.
ANFILOGOFF, N. A., on oil-tanks, 148.
——, on shale-oil, 186.
Anticlinal structure in oil-shale fields, 249.
Aromatic hydrocarbons, 295, 296, 300.
ASHMORE, G. P., on Peruvian oil-shale, 186.
Asphalt, analyses, 246, 252, 259, 262.
—— carried over in distillation, 287, 297, 301.
—— cement protection of pipeline, 122.
—— climatal tests, 26.
Athabasca Tar Sands, 269.

BAIN, FOSTER, on Mexican oilfields, 41.
Barbados manjak, 254, 261.
—— oil-sands, 269.
Barometric pressure and flash-point, 3.
BARRINGER, H., on viscosity of oils, 71.
BARRINGER, H., Oil Storage, 122, 155.
Bauxite filtration, 287, 295, 298, 302.
BEILBY, Dr. G. T., on viscosity of oils, 68.
BERRY, A. G. V., explains water-finder, 158.
Bibliography, 159.
—— of British Oil-shales, 178.
—— of Mexican Petroleum Industry, 31.
—— of Uralsk Oilfields, 114.
Blended oils, physical constants of, 57, 75, 79.
—— separation in storage, 59.
Blending lubricating oils, 140, 152.
Boghead coals, 239.
BOWRING, Sir THOS. B., obituary notice, no. 5, p. xii.
BRAME, J. S. S., on refining, 298.
Brochure of the Institution, 5, 194.
Bryson cooler, 281.
Bulgarian oil-shales, 244.
Burkheiser process, 176, 189.
BUTTERFIELD, W. J. A., on oil-shale, 187.
By-products of natural gas, 215.
—— of oil-shale, 167, 173, 185.

CADMAN, Prof. J., on Mexican oil-fields, 37.
—— on natural gas in coal, 223.
—— on oil-shale, 185.
—— on viscosity of oils, 69.
—— Presidential Address, 234.
—— thanks Sir Boverton Redwood for his valedictory address, 195.
—— vote of thanks to retiring President, 230.
Calcium cyanamide from natural gas, 215.
Calibration of tanks, 131.
Californian fuller's earth, 265.
—— natural gas, 198, 202, 204, 213, 215, 220.
—— oil, nitrogen in, 262.
—— oil-yield, 29.
CAMPBELL, A., Petroleum Refining, 274.
Canada, natural gas, 195, 200, 202, 205, 216, 220, 224.
Candle-manufacture, paraffin, 292.
—— wicks, self-snuffing, 293.
Cannel Coal, 246.

Carbon tetrachloride from natural gas, 216.
Cases for candles, petrol tins, &c., 294.
Casing-head gas—see Natural gas.
Caspian Sea, 89.
Catalysis in desulphurisation, 86, 188, 189.
Caulking tanks, 128, 149, 156.
Cave-storage, 131.
Chattock Manometer, 65.
Chemistry, Experimental, by Drs. Dunstan and Thole, reviewed, no. 8, p. ix.
China, natural gas in, 200.
Chloroform from natural gas, 216.
Clay, adsorption of bitumen by, 258, 263, 270.
Climate of Mexico (Gulf Coast), 7.
—— Uralsk, 92.
Coal, natural gas in, 196, 223.
Colloidal (gelatinous) oil, 69, 75.
Colloids in filtration, 298, 299.
Compressed-air agitation, 140, 152, 290.
—— for pumping petrol, 139, 151, 156.
Continuous Distillation, 278.
Control of wells, 2, 85.
Co-operation in science, 177, 190.
Co-ordination of geological data, 235.
Copper acted upon by oils, 134.
Cracking, effect on paraffin wax, 297.
Craig, E. H. C., Kerogen and Kerogen Shales, 238, 273.
—— on oil-shales, 183.
—— on natural gas, W. Canada, 225.
Crude suggestions, possible value of, 86.

Dakota natural gas, 220.
Dalley, C., on oil-tanks, 147.
Dalton, W. H., En Avant! 1.
—— Waste, 85.
—— Bibliography, 159.
—— —— of British Oil-Shales (including Torbanite), 178.
—— on the Heathfield natural-gas field, 226.
—— Suggested Changes in our Work, 227.
Decolorisation, 287, 300.
Delivery-pipes, 134, 138.
Del Monte distillation-system, 174.
Displacement of oil from sunk stores, 147.
Distillation, 172, 275, 296, 301.
Dorsetshire Oil Shales, 162, 268.
Dos Bocas well, Mexico, 9, 30.
Drilling systems, Mexican fields, 17.
Duckham, A., on submersible tank-ships, 155.
Duckham, A., on the sulphur-dioxide process, 297.
Dunstan, A. E., on desulphurisation of coal-gas, 189.
—— on refining, 299.
—— on viscosity of oils, 73.
Dunstan, A. E., and F. B. Thole. A Senior Experimental Chemistry, reviewed, no. 8, p. ix.
Dutch East Indies, oil production, 30.

Eastlake, A. W., pioneer of Uralsk oilfields, 118.
Edeleanu process, 290, 295, 301.
Egypt, glance-pitch, 246, 254, 262.
Elaterite in Scotch oil-shales, 250.
Elbows in tank-piping, 134, 150, 156.
Electricity developed in petrol discharge, 146.
Enclosure of tank-yards, 124, 153, 157.
English oil shales, 164, 268.
Esling, F., on viscosity of oils, 79.
Evans, E. A., on refining, 300.
Expansion-joints in pipe-lines, 135, 150.

Field-training essential in technology, 236.
Filters for fuel-oil, 136.
Filtration of paraffin, 287, 295, 297, 302.
—— of petroleum, 258, 264.
Fire in oil-tanks, 136, 144, 155.
Flash-point determination, 3, 57, 60, 69, 75, 77.
Formaldehyde from natural gas, 215.
Foundations for oil-tanks, 125, 148, 152, 153, 155.
Fuel-oil, 26, 136, 138, 188, 231, 237.
Fuller's Earth, filtration of oil through, 264.

Galicia, natural gas in, 205, 219.
Galician oil, nitrogen in, 262.
—— oilfields yield, 30.
Gas in petrol tanks, 130, 154.
Gasoline (petrol) from natural gas, 211.
—— —— extraction-processes, 212.
—— —— transport regulations, 214.
Gauging of gas-yield, 207.
—— of tanks, 131, 145, 158.
Geology of Dorsetshire oil-shale, 170.
—— Mexican oilfields, 10, 39, 42.
—— New South Wales oil-shale, 253.
—— Scotch oil-shale fields, 247.
—— South African ditto, 253.
—— Uralsk oilfields, 105.
German oilfields yield, 30.
Gifts to Library, 194.
Gilsonite, 254, 262.

Glance-pitch, 246, 254, 262.
GLAZEBROOK, Dr. R. T. The Viscosity of Oils in relation to the Rate of Flow through Pipes, 45, 79, 158.
Grahamite, 246, 254.

HACKFORD, J. E., on viscosity of oils, 70.
Hamburg natural gas, 187.
HAMILTON, L., on Mexican oilfields, 40.
Handrails on tank roofs, 129, 153.
—— utilisation as lightning conductors, 129, 147.
Heathfield, Sussex, natural gas, 166, 225, 226.
Heating, economy in distillation, 279, 295.
Heating lubricating oil, 152.
—— pipe-lines, 39, 42, 72, 121, 135, 150, 156.
—— tanks, 130.
HENDERSON, Dr. J. A. L., on Mexican oilfields, 40.
